

Executive Coach

Didier Périlleux, M.Sc., PCC

Brooklyn, New York

Didier is dedicated to partnering with leaders to unlock their full potential, cultivate transformative organizational cultures, and lead lives that truly shine. With 31 years in the pharmaceutical industry spanning nine markets across five continents, Didier brings unparalleled global insight to his coaching practice. His career has seen him excel in roles from country manager to regional and global leadership positions.

As the Hospital Global Marketing Vice President at Pfizer Inc., Didier currently directs a team responsible for an \$4 billion global portfolio. In his role, he oversees brands and portfolio strategy development and implementation for international markets.

Grounded in Positive Psychology and a strengths-based approach, Didier's coaching is characterized by its collaborative, solution-focused, and compassionate nature. As a Professional Certified Coach (PCC) with the ICF, he has guided numerous leaders and executives to achieve their highest professional and personal aspirations.

- Certified in formal assessment tools including VIA (Values In Action) Character Strengths, DiSC, Hogan Leadership Series, Lumina Spark, Culture Levers, Culture-Actualization Index

What clients say about Didier

"Didier's coaching was invaluable to opening-up a new way to look at myself and my career. At the time I was at a career crossroad, unsure what was the right career choice and doubting I could reach a seemingly far-fetched goal. He saw the real cause of my indecisiveness and enabled me to look at career choices from new angles. He also helped me see I had been focusing on my weaknesses rather than strengths, which was stopping me from attempting bold moves. Working with Didier not only helped my pursuit of professional career but also pursuit of personal happiness. Didier is patient, straight-forward and has extremely rich career development experience, a perfect coach to help you learn more about yourself and advance your career ambition." Global Executive
